### **DETAILED ACTION**

This Office Action is responsive to the applicants' amendment filed on October 27, 2005.

Claims 1, 5 and 7 have been amended. Accordingly, claims 1, 5 and 7 are pending in this application.

Applicants' cooperation in correcting the informalities in the drawings is appreciated.

#### ***Specification***

1. The disclosure is objected to because of the following informalities: the following headings in the specification are missing: Background of the Invention, Summary of the Invention, Brief Description of the Drawing, and Detailed Description of the Invention. Applicant is requested to insert heading to separate the various parts of the application. Appropriate correction is required.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1, 5 and 7, the phrase "the first stator being reversible or displaceable" renders the claim indefinite because it is unclear how the first stator is reversible or displaceable. Applicants note that only the space/area is reversible and displaceable on opposite ends of the pump chamber tube as shown in Figs 2 and 3 for switching the operating and spare regions. The

Art Unit: 3748

detailed description should be amended in response to this office action to clarify the language in the claims.

The claims not specifically mentioned are indefinite since they depended from one of the above claims.

***Allowable Subject Matter***

Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Response to Arguments***

Applicant's arguments with respect to claims 1-7 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
